

# Practice Plan Policy

Patients enrolled in our Practice Plan receive a **10% discount** on all treatments as a benefit of membership.

Please note the following terms regarding early cancellation:

- If a patient **cancels their plan within the first 6 months** of joining, they will be responsible for **repaying the outstanding balance** of any services already received under the plan.
- This includes the **cost of examinations and hygiene appointments**, especially if the monthly payments made do not yet cover the value of those services.
- The amount to be repaid will be calculated based on the **standard private treatment fees**, minus any payments already made through the plan.

We encourage patients to speak with our team if they have any questions before joining or cancelling the plan.
